PLUMBING & MECHANICAL

- ▶ KBIS, IBS co-locate for Design and Construction Week
- ▶ Water heater innovations provide value to customers

## NEW YEAR, NEW PRODUCTS

The AHR Expo is returning to Las Vegas for its largest show yet.

## ► KBIS/IBS PREVIEW

### Dual control shower panel

Lenova's Thermostatic Shower Panel is an all-inclusive shower system that offers a rain shower top, multiple body sprayers, and a hand-held shower. The single-handle design offers high pressure resistance and dual control over both water flow and temperature. The system provides stability over water temperature, maintaining temperatures within 1°F, even when the rain shower and body sprayers are used simultaneously. As an added safety measure, its handle stays cool even when the water is hot. Available in a stainless steel finish, it measures 50 by 8 inches with a 19-inch showerhead depth. **Lenova. ### Compact design

Moen's Genta bath suite is compact in design and makes a statement with curved edges and clean lines in a chrome finish. For added appeal, it presents a twisting ribbon water flow. Accessories are also available, including a single robe hook, pivoting paper holder, hand towel bar, and towel bars in 18- and 24-inch lengths. **Moen. [pro.moen.com](http://pro.moen.com). ### Kitchen collection

Pfister's Stellen kitchen collection includes pull-down kitchen and pull-down bar/prep faucets in polished chrome, stainless steel, and matte black. The forward-only pivot handle controls both volume and temperature with one movement. The pull-down spray head can be extended to reach any area of the sink. Users can choose between soft stream, spray, and pause with the push of a button on the spray head. The AccuDock system ensures the spray head stays in place. **Pfister. ### Pneumatic flush buttons

Geberit's Type 01, Type 10, and Type 70 pneumatic flush buttons allow bathroom designers to position flush activation anywhere within a 5.5-foot radius of the concealed tank. In special construction situations requiring enhanced user comfort and accessibility, a remote flush is the optimal solution. Flush buttons can be installed in bathroom furniture and solid wall or drywall construction. The remote buttons are available in dual-flush and single-flush models and in a variety of sizes, colors, materials, and finishes. Special collars and cover plates are available to conceal the flush opening and give a sleek look to the final installation. **Geberit. ### Mix-and-match bath fixtures

Isenberg's Series 145 includes 21 coordinating pieces. Users can choose from a single-hole basin faucet, deck-mounted Roman faucet, or freestanding tub filler. Options include a variety of configurations for sinks and tubs as well as thermostatic shower valves and diverters. There are coordinating accessory pieces to choose from, such as towel bars, robe hooks, and paper holders. Hidden aerators are featured in the 8-inch widespread and Roman tub spouts to deliver a smooth, splash-free stream of water and promote eco-friendly water conservation. Made with solid brass construction, the series is available in chrome, polished brass, and polished nickel. **Isenberg. [www.isenbergfaucets.com](http://www.isenbergfaucets.com). Booth #S4408**
